During the dance performance of STRETCH the video dance performance 'Lost without my things' by Emma Verbeeck & Romy Vanderveken X Chill Chair by Zigmund Pront will be played: “In the performance Lost without my things, dancer Emma Verbeeck and visual artist & choreographer Romy Vanderveken harmonize the link between people and objects, as a reflection of the design process. How connected are we with the things and objects that surround us? This performance illustrates the intimate dialogue between a dancer and her environment. The immediate surroundings - the Chill Chairs - question her sense of coordination and balance. Ultimately, in this performance the border between dance and daily routine disappears. Dancer and object become one, the self dissolves in its environment.”
